MUSTECH OS · QUICK START

From payment to your first morning report.

About 30 minutes of setup before Day 1, in five stages. Each step shows what you will see on screen.

TIME	COMPUTER	AI PLAN	ALSO
About 30 minutes	A Mac with macOS 13 or later	Paid Claude, ChatGPT, or Google AI	Your phone

01

Reserve your seat

2 minutes

1

Pay for your Jumpstart seat

Enter your email and pay on a secure checkout, by PayNow or card. Your receipt arrives by email. The seat includes 1 year of MusTech OS updates.

PAYNOW CARD

02

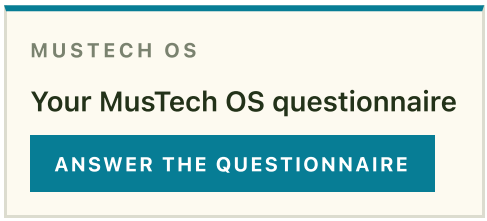

Answer the questionnaire

10 minutes, any device

2

Open the questionnaire email

The link arrives right after payment. Plain questions about how your business works, each with a note on why we ask. Your answers decide which departments you get.

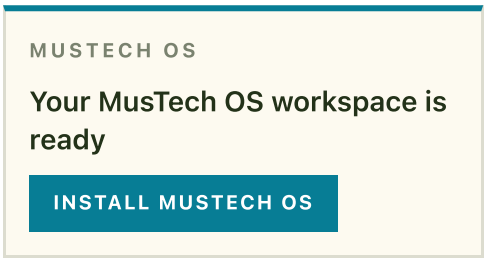

03

Install MusTech OS

10 minutes, on your computer

3 Open the “ready” email on your computer

Your workspace is built from your answers within minutes. Open the email on the computer you work from, not your phone.

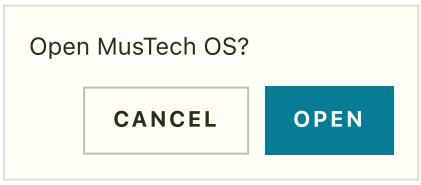

4 Download, open, install

The installer is signed and checked by Apple, so it opens without warnings. Type your computer password when asked.

DOWNLOAD MUSTECH OS FOR MAC

5 Set up your workspace

Back on the same page, press the button. If your browser asks to open MusTech OS, choose Open. It checks your workspace is genuine and puts it in place.

Tip: Your Command Centre opens in your browser. Bookmark it: this is where your day starts.

04

Connect

10 minutes, on the Get started card

6 Connect your AI

Press the AI tool you already pay for. MusTech OS sets it up and checks it can work while you are away. Allow it once when your tool asks.

CLAUDE CODE | CODEX | ANTIGRAVITY

7 Add your phone

Scan the code with your phone's camera and choose Add to Home Screen. Send a test note. Notes are sealed on your phone and only your computer can open them.

SHOW THE CODE FOR MY PHONE

05

At Jumpstart

two half-day sessions

8

Day 1: reconcile your business

Structured Operational Intake: every open job, unpaid invoice, outstanding quote, and filing deadline goes into one Commitments Ledger.

COMMITMENTS LEDGER

9

Day 2: your first morning report

The departments worked overnight. You answer your first decisions, then put them to work on a real job: a contract, a quote, or your website.

3 NEED YOU TODAY

06

Your day, at your desk.

Every day after Jumpstart.

8 AM

Open your Command Centre

Decide yes or no. Answer each Input. Read each Notify.

AT YOUR DESK

Ask your AI tool for the work

“Build the pricing page.” “Check this contract.” “Plan the December launch.”

AWAY

Send it to HQ from your phone

A note, a quote, or a photo of a receipt. It is waiting when you are back.

07

If something looks wrong

“Set up” did nothing

Install the app first, then press the button again.

The link expired

Ask for a new one on the download page. It arrives in minutes.

Closed the Command Centre

Open your bookmark. MusTech OS keeps running.

Want to remove it

Open MusTech OS from Applications. Your records stay.
