Answer the questions

10 MIN, ANY DEVICE

2

Open the questionnaire email

Plain questions about how your business works, each with a note on why we ask.

Install MusTech OS

10 MIN, YOUR MAC

3

Open the "ready" email on your computer

Your workspace is built from your answers within minutes. Open it on the computer you work from.

4

Download, open, install

Signed and checked by Apple, so it opens without warnings. Type your computer password when asked.

5

Set up your workspace

Back on the same page, press Set up. When your browser asks, choose Open. Bookmark the Command Centre that opens.

Connect

6

Connect your AI

Press the AI tool you already pay for. Allow it once when your tool asks.

7

Add your phone

Scan the code with your phone's camera, choose Add to Home Screen, and send a test note.

At Jumpstart

2 HALF-DAYS

8

Day 1: reconcile your business

Every open job, unpaid invoice, outstanding quote, and filing deadline goes into one Commitments Ledger.

9

Day 2: your first morning report

The departments worked overnight. Answer your first decisions, then put them to work on a real job.

EVERY DAY AFTER

8 am	**Open your Command Centre.** Decide yes or no. Answer each Input.
At your desk	**Ask your AI tool for the work.** "Check this contract." "Plan the launch."
Away	**Send it from your phone.** A note or a receipt photo, waiting when you are back.

IF SOMETHING LOOKS WRONG

"Set up" did nothing: Install the app first, then press it again.

The link expired: Ask for a new one on the download page.

Closed the Command Centre: Open your bookmark. It keeps running.

Want to remove it: Open MusTech OS from Applications. Your records stay.
